ABOUT US

RJM Precision Machinery is recognized as superior precision Fabrication and machine tools Machinery. We are supplied unique Machines in Laser Cutting, Laser Welding, Laser Engraving, CNC Bending & CNC Shearing. **Manufacture** of Special Purpose Machine like different type of Conveyors, Belt Conveyor, Centralized Coolant Filtration Systems & Chip Processing Unit. We have evolved for "one Stop Solution" for Industrial machinery in term of Fabrication Process & Automation. We trust that our Valued Customers have long been satisfied with the Excellence of our Product. We focus on highly accurate & economical fabrication with a safe design Parameters & repeatable Quality and low setting-up cost. We will provide better on site support after sales Service & Technical Assistance. Our Objective to providing efficient and quality tested machine to the customers.

Our Mainly Widerange of Industrial machinery :

MachineTools Products : DifferentType of Conveyor, Filtration, Automation & other SPMs.

Fabrication : All type of Customize fiber Laser Machines for metal & Non-metal, Press Brake & CNC Bending Machines.

Our Mission:

Our mission is to produce and continually develop quality products at a competitive price while fostering a climate where environmental technologies can thrive. We will always strive to service our customer with the utmost integrity, and to their complete satisfaction. It is our goal to ensure our mission by continuous self improvement, growth in our operations and employees; while maintaining profitability to the benefit of our customers, employees, and community. All employees will work together in combining their efforts and skills to ensure our mission and goals are fulfilled in a courteous manner.

Our Vision :

We dedicate ourselves to be the supplier of choice when our type of products are being sought. This vision will be accomplished by sharing the responsibilities of planning and decision making with all of our employees.

RJMPM - 1810

FOUR HEAD

RJMPM - 1610

RJMPM - 1390 / 1310

Product Name	Co2 Laser Cutting Machine
Product Model	RJMPM-1310, RJMPM-1610, RJMPM-1810
Laser Power	80W/100W/130W/150W
Working Area	1300*1000mm, 1600*900mm, 1300*1000mm, 1800*1000mm
Cutting Speed	0-50000mm/Min
Laser Energy Control	Real-Time Adjustable
Voltage	220V/50HZ 110V/60HZ
Cooling Way	Water Cooling
Support Picture Format	DST, PLT, BMP, DXF, AI
Control software	CORELDRAW / PHOTOSHOP / AUTOCAD

HAND-HEAD LASER CLEANING MACHINE

Laser cleaning machine, also called rust removal machine, is a new generation of high-tech products for surface cleaning, which can effectively remove the surface attachments or surface coatings of cleaning objects at a high speed, so as to achieve a clean process. It is a new technology based on the interaction effect of laser and substance. It is different from traditional mechanical cleaning method, chemical cleaning method and ultrasonic cleaning method (wet cleaning process). It does not require any CFC organic solvents that destroy the ozone layer and is pollution-free. No noise, harmless to the human body and the environment, it is a truly green cleaning technology.

LASER WELDING & CLEANING- 2 IN 1

Laser Welding Cleaning & Cutting 3 IN 1

FIBER LASER CUTTING MACHINE

LASER WELDING MACHINE

Mould Laser Welding Machine

Technical Parameters

Model	Mould Laser Welding Machine
Laser Power	200W / 400W
Electric Power	6kw / 9kw
Cooling Mode	Water Cooling
Laser pulse Frequency	1-200HZ
Pulse Width	0.1-20ms
Spot Size	0.2-3.0mm
Minimum Welding Pool	0.1mm
Machine Dimension	760*550*710mm + 440*540*500mm
Water Tank Dimension	75*48*81cm
Grand Weight	350kgs
Xenon's Working Life	8month-12months
Laser Positioning	Red pointer
Capacitance	8/16

Galvanometer Scanning Laser Welding Machine

OUR PRODUCT RANGE

SCREEN VIBRATOR

LASER CUTTING MACHINES

LASER WELDING CLEANING & CUTTING 3 IN 1

FIBER GOLD LASER CUTTING MACHINE

FIBER LASER WELDING MACHINE

FIBER LASER MARKING MACHINE

CONVEYORS & SPM

OPEN TABLE MODEL UV LASER MARKING MACHINE
